Selectmen of Hillsborough,

Report of the Selectmen,

For the Year Ending Feb. 15, 1904.

TO THE CITIZENS OF HILLSBOROUGH, N. H.

We respectfully submit for your inspection our annual report with the reports of all the other Town Officers and Committees as well as the Precinct Officers and School Boards to which we refer you for information regarding the receipts and expenditures in any of the departments.

You will doubtless notice that the indebtedness of the town has been increased during the year to the extent of \$593.04. To offset this we desire to call your attention to the fact that the town's appropriations for the year 1903 were \$2750.00 less than the year 1902. The unusual expenses of the town during the year are the Water street surface sewer costing \$1474.15, police station and sewer, new road machine and harnesses costing about \$500 more. All this should be considered in criticising the acts of your selectmen.

The petition of Mr. Amariah Smith and others for an extension of Whittamore to Holman Street, considering the expense attending its construction and land damages, we have referred to the annual town meeting for your consideration and action.

The Surface Sewer extension was a case of "had to be." Very soon after our election we were notified by Mr. Robt. B. Clement that it must be removed from its present location or pay damages for its extensive flooding of the land where it then emptied.

As soon as we could we investigated the matter

thoroughly but we were unable to arrange with Mr. Clement any satisfactory price for damages, Mr. Clement insisting with good nature that it must be removed from his land. We were able to obtain permission from Messrs. John B. Smith and George E. Gould of the Contoocook Mill Corporation to cross their land and empty into the river or raceway with no land damages provided the waste water was taken from the watering trough near the residence of the late Horace Gould on Water Street, thereby preventing the waste water from the trough and vicinity crossing and injuring the lumber yard. The sewer to remain as long as the present corporation owned the real estate but any damage done to it in operating the present plant, erecting new buildings or repairing the present ones to be repaired at the expense of the town.

The sewer, more than 1200 feet long with five man-holes, has been completed and is in good working order. The excavating on part of Water St. and from it to the raceway was simply terrible. As it was impossible to obtain sufficient help here, after considerable effort and expense we were able to obtain eleven or twelve Italians who soon appreciating the situation struck for more pay, then for rubber boots and latest for less hours. The former was refused but the two last were granted and the sewer completed at a cost of \$1474.15. (See note.)

By request of the Board of Health the Police Station has been connected with the sewer at an expense of more than \$125.00 and the building repaired.

Owing to business engagements Mr. Walter J. A. Ward was obliged to be away nearly all the time since July 1, 1903. His absence rendered it necessary for the two remaining members to do the whole of the Selectmen's labor usually done by three. With these few remarks we respectfully submit our annual report.

IRA W. JACKMAN,

MARCELLUS H. FELT.

Report of the Board of Health.

To the Selectmen and Citizens of Hillsborough, N. H.

The sanitary condition of the town continues good. The condition of the shores of Loon Lake, the source of the water supply of the Bridge village, have been supervised, and its waters kept free from pollution. If summer cottages continue to be built there, it may, in the near future, require decided action to continue the result.

There have been but few cases of infectious or contagious diseases within the limits of the town during the past year.

We ask the hearty co-operation of all citizens for the continuance of present conditions.

Respectfully submitted,

(Signed)

In presenting our report for the closing year, we regret that we cannot show a larger increase in the circulation of the non-fiction, or solid books. We have in the library and are adding each year, a large number of valuable and interesting books other than fiction, the reading of which by the young people we should be glad to see encouraged.

The room used for the library is becoming much crowded, and we shall soon be forced to move into better accommodations if such can be found.

We trust the town will make the same appropriation as last year, enabling us to continue our frequent additions of new books.

WALTER J. A. WARD,

 GEORGE W. HASLET, Secretary,

REPORT OF

Committee on Town History.

To fill vacancies on this committee, caused by resignation or death, three new members were appointed at the last Annual Meeting and later the Committee appointed another member, thus practically re-organizing the committee.

There was found no record of work done by the committee on any of the various topics pertaining to the town history with the exception of a good amount of genealogical work by Dr. John Goodell, the only remaining member of the original committee.

At the present date, work has been done on five to six hundred families; also on such other topics as early industries, histories of the older churches, etc.

The committee has endeavored to engage some expert on historical work, but has not been able to find a suitable one. Some additional assistance is expected this spring, however, and more rapid progress can undoubtedly be made.

The genealogical work so far done has related principally to the older families and early settlers. On this line it has been exceedingly difficult to obtain sufficient and correct data, owing to the reluctance of relatives to furnish the desired information. Blank forms and letters have been sent to many in town and elsewhere without eliciting the slightest answer. It is of interest to the town to have a full record of our early settlers. It is of equal interest to the present descendants of those settlers, but the committee will be obliged to omit many names unless the citizens, to whom enquiries are made, will assist the committee in promptly furnishing answers to the several questions.

The town has been very generous in its appropriations for carrying on this work and we hope we may have the personal co-operation of every citizen, that we may produce a valuable and interesting publication, complete in all its different topics.

GEORGE W. HASLET, Secretary.

Tree Warden's Report.

As Tree Warden I submit the following report :

There have been thirty-two hundred (3200) trees marked—many of them the second time. Many of the first tags were removed or misplaced by parties which were liable to a heavy fine for the same.

I have given three public notices in regard to removal of trees in the village limits; also have trimmed many in the same location.

This is the first year the town has given attention to preserving the trees and I am quite sure the people but little understood this purpose and the state law. The benefit eventually derived, I think, will be pleasing to the greater part of our people.

Tree Warden.

REPORT OF

Hillsboro Bridge Village Fire

Precinct.

COMMISSIONERS:

H. J. GAGE,

A. J. VANDOMMELE,

J. FRANK SULLIVAN.

We have been very fortunate in not having any serious fires the past year. The woods fire in June was quite an expense to the Precinct, having cost \$122.55 to keep it under control. The fire department responded to six alarms during the year. We hope at some future time, the department may have more presentable quarters.

REPORT OF
The Board of Education,
For Special School District,

FOR THE YEAR ENDING FEBRUARY 15, 1904.

As soon as possible after the close of the schools in June much needed repairs began on the school house, and, although a portion of the appropriation remains in the treasury, the result is very satisfactory.

By filling the many crevices, the rooms have been easily heated by a ten-pound pressure against fifteen in recent seasons and our school house in its new coat of paint is an ornament to the village.

The corps of teachers remains the same as last year, with the exception of the High School Assistant. Miss Farman's resignation at the beginning of the Spring term was regretted. Miss Trask completed the year's work successfully but resigned at the close of the term to accept a more lucrative position, and Miss Stratton, a graduate of Bates College, was elected at the beginning of the fall term. All seem interested and endeavoring to accomplish the best results for school and scholars. It is hoped that some way may be found to again include drawing in our course of study.

The High School will this summer, for the first time, deny the privilege of graduation to three-year students. This is necessary, under the state laws, if we are to be recognized as a High School and keep our pupils from going elsewhere and the town be responsible for tuition. Two graduates, class of '03, returned for the fourth year studies. The High School at the next Commencement will have a larger membership as there will then be four regular classes instead of three classes and two post graduates, as now.

One of the most encouraging features of the school, is the increased numbers in the higher grades.

In each of the eighth and ninth grades a few years ago there were not more than nine or ten scholars, one year but seven in one of them.

There are nineteen in the present ninth grade and thirty-six in the eighth. The aim to advance the standard of the schools has been seconded by the teachers, and, other things being equal, the next class to enter the High School will be better prepared than any previous one.

The co-operation and sympathy of the parents in matters pertaining to the educational and social welfare of the school and the pride and interest manifested by the citizens whenever the merits and ability of the pupils crave their approval, reflect credit on our village and are a source of gratification to teachers and members of the Board of Education.

Respectfully submitted.

JOSEPH W. CHADWICK,
MARY E. BROWN,
STILLMAN H. BAKER,

Board of Education.

Report of Committee for Building New School-House.

At the adjourned Annual Meeting of May, 1903, it was voted to appropriate \$2000 for a lot of land and building, one thousand to be raised in 1903 and one thousand in 1904. No provision was made for borrowing the second thousand dollars, for use this year, and without such special provision, the committee had no authority for borrowing the money and the Board of Education also disclaimed authority. The committee, therefore, being unable to obtain the money, could do no more than purchase a suitable lot.

The committee regrets that it was unable to provide the accommodations so much needed. The amount of the appropriation, however, was entirely inadequate for providing a suitable building, and it is hoped that at the coming annual meeting enough additional money will be raised to erect a building which shall be worthy of our village.

The cash account of the committee to date is as follows :

DR.		
Received from Selectmen	\$414 87	
CR.		
Paid for building lot		\$400 00

Report of Board of Education,

Town School District,

For the Year Ending Feb. 15, 1904.

In presenting our report it is customary to make a few remarks in regard to the condition of our schools.

The schools as a whole seem to be in a prosperous condition and although there has been a lower percent of attendance than we wish, still as a whole we believe the scholars and teachers have worked together and have been supported by the parents.

Thanks to the liberal appropriations we have been able to give you thirty weeks of school and make a few repairs on the school houses and although many more repairs might be made to advantage, we believe all of the school houses are in comfortable condition.

We have tried to expend the money given us judiciously and hope for a liberal appropriation in the future.

We have made a few changes in the text books and added some new ones and believe them to be well adapted to the needs of the schools. In conclusion we wish to thank parents, scholars and all others for the kindness shown us and hope they will continue to give their hearty co-operation in the efforts for a profitable school.

ORRIN S. HUNTLEY,
LIZZIE S. TUTTLE,
JAMES M. RAY,

Board of Education,
